-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 February 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Objections

Claims 1 and 2 are objected to because of the following informalities: both of these claims recite "an net influx" in line 2, respectively, which should be changed to --a net influx--. Appropriate correction is required.

Claim 56 is objected to because of the following informalities: in line 2, "design" should be --designed--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-14, 17-19 and 28-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8-14, 17 and 28 each recite "said sink material" in line 1, respectively. The claims lack an antecedent basis for this limitation. (Claims 29-31 are rejected since they depend on claim 28 which is indefinite for the above mentioned reason.)

Claims 18 and 19 each recite "said catalyst" in line 1, respectively. The claims lack an antecedent basis for this limitation.

Allowable Subject Matter

Claims 1, 2, 6, 7, 29-32, 39-57 are allowed.

Claims 8-14, 17-19 and 28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach or suggest a device that is capable of being ingested and comprises a mechanism for generating a net influx of at least one constituent-of-interest present in a gastrointestinal tract of an individual such that the constituent-of-interest becomes absorbed in the mechanism, and wherein the device also comprises a housing confining the mechanism. It is noted that the claimed device is interpreted to mean that the (sink) mechanism is *capable* of absorbing a constituent present in a gastrointestinal tract of an individual and that the term "absorbed" is interpreted to mean absorbed "via high or low affinity binding" as is defined in paragraph 0146 in the specification. (In the response of February 19, 2008, Applicant emphasized paragraph 0146, along with paragraphs 0134 and 0145, and the disclosure in paragraph 0146 appears to give a specific definition for the term "absorb" and thus the limitation "absorbed" in the claims is given this limited definition.) The Stoltz reference is a sampling device and there was no finding of a teaching or suggestion in the Stoltz reference or other prior art to combine the Stoltz device, or similar device, with an element capable of absorbing (having affinity for) a constituent in a gastrointestinal tract.

Conclusion

It is noted that Examiner had on May 22, 2008 attempted to reach Applicant's attorney via telephone to resolve the above remaining issues but was unable to reach Applicant's attorney.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ANN Y. LAM whose telephone number is (571)272-0822. The examiner can normally be reached on Mon.-Fri. 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le can be reached on 571-272-0823. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
